

## Step 1

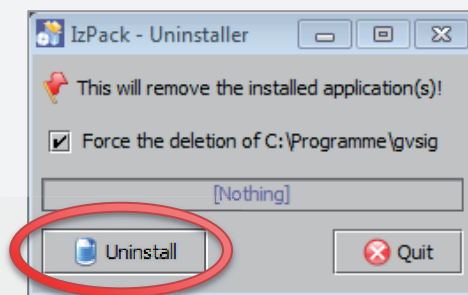

To uninstall the gvSIG 1.10 application, click the "Windows Start Button" and click "All Programs" to view the list of installed programs.

Open the "Gva" Folder, then click on gvSIG.

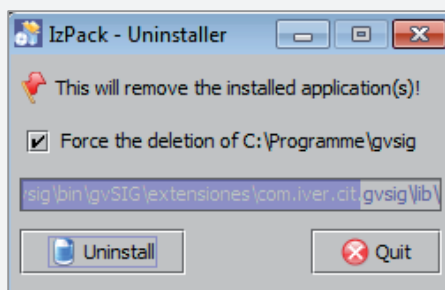

Execute the "Uninstall gvSIG" application.

## Step 2

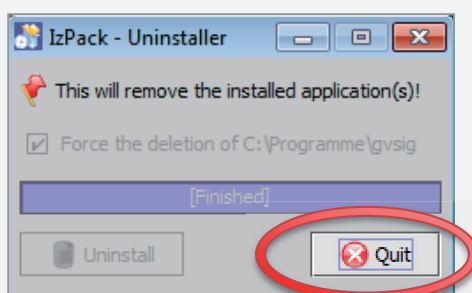

Continue to remove gvSIG from your computer by clicking "Uninstall".

## Step 3

All installed gvSIG applications will be removed automatically.

## Step 4

Complete the removal of the gvSIG software by clicking "Quit".
